Sensors BTDA

https://exaktor.com/en/product/sensorer-btda/

2026-11-14

- Sensors with BTDA control
- Recessed ceiling or exterior installation
- Convert DALI luminaire to smart BTDA

Find the right BTDA sensor to control your lighting installation! Here you will find sensors for recessed suspended ceilings with external mounting frame and sensors for mounting on DALI luminaires. Exaktor's BTDA system enables smart and energy-efficient lighting control. Through Exaktor's Koolmesh app, the user can easily configure and customise the lighting as needed, with features such as presence control, daylight control and wireless group management. This provides a flexible and user-friendly solution suitable for both new installations and upgrades of existing lighting. Can't find what you're looking for? Contact our support and we will help you!
