- Stylish and functional pendant lighting with BTDA
- Presence sensor and pull cord
- Programmable with Exaktor Koolmesh app

CRI>80 | Dimbar | DE | IP20 | BTDA | Made in Sweden

The Stratus BTDA pendant luminaire is a stylish and functional interior luminaire suitable for offices, conference rooms, or schools. Stratus is available in two different lengths and two different color temperatures. The white version is available with a microprismatic anti-glare shield (P) or reflector anti-glare shield (R), while the black version is available with a microprismatic anti-glare shield.

The luminaire has a wide-angle uplight (55% on the 1200 version and 60% on the 1500 version) and a well-shielded downlight (45% on the 1200 version and 40% on the 1500 version) towards the work surface, making the luminaire suitable for environments with high glare requirements.

On request, Stratus can be mounted in a row with up to 10 luminaires and ordered with a different luminous flux.

The luminaire is manufactured in Värnamo.

Variations

E-number	Product name	Max. system power (W)	Lumen (lm)	Colour temperature (K)	Beam angle (°)	Mått (LxWxH/D, mm)	Colour
