

- Fulfills the requirements for D-marking
- Made in Värnamo, Sweden

Mamba Mini Agro + is a well-encapsulated luminaire in fiberglass-reinforced polyester for agriculture, animal sheds, industry or other demanding environments that meet the requirements for D-marking. The luminaire is available in two lengths (1200,1500mm), with 4000K and has adjustable power and luminous flux in four steps. Mamba Mini Agro + has a light output up to 163 lm/W and is available with different light distributions; 30°, 60° or 90°. The luminaire is available as on/off, DALI, RS, RS DIM or BTDA. On/off Wiring entry at the gable / gables. Overhead connection (ÖK) 5G2. 5 mm². DALI can be connected as DALI or as impulse control/Switch Dim. Wiring entry at gable/gables. Overcoupling (ÖK) 5G2. 5 mm². RS motion sensor detects movement through glass/walls (not metal). It is also possible to allow an RS luminaire to operate luminaires without RS (slave luminaires, with on/off) Cable entry at gable/headboards. Overwiring (ÖK) 5G2. 5 mm². RS DIM has the same characteristics as RS and 10% basic light. On request, RS DIM is available with programmed extinguishing. It is also possible to let an RS DIM luminaire operate luminaires without RS DIM (slave luminaires, with DALI). BTDA is equipped with a motion sensor and wireless control of luminaires using Bluetooth. Through an app in your mobile or tablet, you can set groups, sensor sensitivity, hold time and basic light. The luminaires communicate through a mesh network. BTDA/RS/RS DIM is best suited for ceiling heights up to 4 meters. On request, the luminaire can be delivered with CRI90, 3000K or 6500K. The luminaire is manufactured in Värnamo.
