

- Easy to install, IP65-rated for demanding environments
- Flexible control and adjustable power
- Replaceable LED modules and driver

Defend is a robust and flexible industrial luminaire with a high ingress protection rating (IP65), specifically developed for agricultural environments, industry, garages, workshops and other demanding spaces where dust and dirt are present.

The luminaire is available in two lengths (1200 and 1500 mm) and with adjustable colour temperature (3000/4000 K). It is available in On/Off or BTDA versions, with the BTDA model equipped with a microwave sensor for demand-based lighting control. The On/Off version has adjustable power, allowing the light output to be easily adapted as required.

The luminaire is designed for easy installation with hinged end caps, quick-connect terminals, 5G2.5 mm<sup>2</sup> through-wiring and dual cable glands. It can be mounted directly to the ceiling or suspended by wire.

Defend is eco-design adapted with replaceable LED modules, driver and sensor, simplifying maintenance and contributing to a long service life.
