

- Adjustable colour temperature 2700/3000/4000K
- Recessed light source and multiple beam angles
- Phase dimmable for flexible lighting

Trix is a stylish and versatile track light that combines modern design with excellent flexibility for adapting the lighting to different environments and needs. The luminaire is available in two sizes and in black or white finishes, making it easy to integrate into various types of interiors, such as shops, offices, public spaces and domestic settings. Thanks to the recessed light source, the luminaire is well glare-free.

With adjustable colour temperature (2700/3000/4000K) and a choice of beam angles (20°/40°/55°), the light can be adapted for both accent and general lighting. The luminaire is also phase-dimmable, offering further flexibility and the ability to create the desired light level and atmosphere.

A brass decorative cylinder is also available as an accessory, giving the luminaire a more exclusive and decorative appearance. (See Accessories)
