

- Anti glare
- Made in Värnamo, Sweden

The interior luminaire Hugin for installation on ceilings is based on a luminaire concept in two lengths; 1200 and 1500mm. Hugin DT is an efficient general lighting for offices, shops or schools, for example, which is mounted on the ceiling using keyholes. The luminaire is available in different variants, on/off or DALI, 3000K or 4000K and in variants with high luminous flux, HO. On/off has a terminal for connection centrally in the luminaire. DALI can be connected as DALI or as impulse control/switch dim. The DALI variant is delivered as standard with 3.0m 5-wire cable. On request, the luminaire can be supplied with CRI 90, adjusted luminous flux, override, emergency light, motion sensor or constant light control. In the same luminaire series there is a pendant version and a recessed version. The luminaire is manufactured in Värnamo.

## Variations

E-number	Product name	Max. system power (W)	Lumen (lm)	Colour temperature (K)	Mått (LxWxH/D, mm)	Colour	IP-class
