- Mirror lighting with a pleasant light distribution
- Adjustable power, color temperature, and PIR sensor
- Made in Värnamo, Sweden

Mimas is a wall-mounted bathroom light fixture designed for installation above a mirror. The fixture provides a well-balanced combination of direct and indirect light, which reduces shadows and provides good lighting around the mirror.

The fixture is available in a 600mm length, with a colour temperature of 3000K or 4000K, and as an On/Off model or with a PIR sensor. Mimas is available in several versions: without a socket, with a 230V earthed socket (U), with a PIR sensor (PIR) or with both a socket and a PIR sensor (U PIR). The luminaire is supplied pre-set to 3000K and maximum power on all models.

Luminaires with a sensor are supplied with a preset delay time of 8 seconds, but can be customised to other times between 8 seconds and 12 minutes when ordering. The sensor luminaire can also control a separate luminaire without a sensor (total power max: 50W), for example ceiling lighting in the room.

Mimas is manufactured in Värnamo.

Variations

E-number	Product name	Max. system power (W)	Colour temperature (K)	Beam angle (°)	Mått (LxWxH/D, mm)	Colour	IK class
7029218	Mimas L06 2CCT Flex	19	3000 - 4000	80	600x98x65	White	IK00
7029219	Mimas L06 U 2CCT Flex	19	3000 - 4000	80	600x98x78	White	IK00
