

- Mirror lighting
- Made in Värnamo, Sweden

Mimas is a wall-mounted luminaire for bathrooms that is mounted over mirrors. The luminaire has a well-balanced light image between direct and indirect light, which minimizes shadow formation in case of reflection. Mimas is available in two different lengths (600 or 900mm), as on/off or with presence sensor, with 3000K or 4000K and in four different designs: Without socket. With addition U = 230V grounded socket With extension NS = Presence sensor With addition U NS = 230V grounded socket and presence sensor Luminaires with presence sensor have a factory-set delay time of 5 minutes but can be ordered on request with the following delay times: 5 s, 1 min, 10 min, 15 min, 30 min and 60 min. It is also possible to let a sensor luminaire drive a luminaire without a sensor, the mirror luminaire can thus control a luminaire without a sensor in the ceiling. As an accessory there is a remote control (7009046) to buy so you can change the delay time yourself. The luminaire is manufactured in Värnamo.

## Variations

E-number	Product name	Max. system power (W)	Colour temperature (K)	Mått (LxWxH/D, mm)	Colour	IP-class	IK class
