

- High efficiency industrial luminaire
- Visual comfort
- Made in Värnamo, Sweden

Zenit is a highly efficient industrial luminaire with good glare control that is well suited for general lighting in, for example, warehouses, industries or shops. The Zenit luminaire series is based on an aluminum frame with optimal cooling properties, which increases the service life of both actuators and LEDs. Zenit PRO is equipped with industrial ballasts that have a higher specification and are particularly suitable in tough environments with high demands. The luminaire is available in two lengths (1198 and 1560mm), in 3000 or 4000K, as on/off or DALI and with a 5x2.5 mm² connection and two 5-pole terminals as standard. On/off DALI can be connected as DALI or as impulse control/Switch Dim. The luminaire is manufactured in Värnamo.

Variations

E-number	Product name	Max. system power (W)	Lumen (lm)	Colour temperature (K)	Mått (LxWxH/D, mm)	Colour	IK class
