

- Stylish and functional pendant lighting with BTDA
- Presence sensor and pull cord
- Programmable with Exaktor Koolmesh app

Stratus pendant BTDA is a stylish and functional interior luminaire for offices, conference rooms or schools. Stratus is available in two different lengths (1200 and 1500mm), in 3000 and 4000K and with microprismatic louvre (P) or reflector louvre (R). The luminaire has a wide beam uplight (55% on the 1200 version and 60% on the 1500 version) and a well-diffused downlight (45% on the 1200 version and 40% on the 1500 version) towards the work surface, which makes the luminaire suitable for environments with high glare control requirements. On request, Stratus can be ramp-mounted with up to 10 luminaires in sequence and ordered with a different luminous flux. The luminaire is manufactured in Värnamo.

Variations

E-number	Product name	Max. system power (W)	Colour temperature (K)	Beam angle (°)	Mått (LxWxH/D, mm)	Colour	IP-class
