

- Next generation Naiad
- Low build and high performance
- Made in Sweden

Naiad G4 is the next generation low-profile all-round luminaire, developed to deliver powerful and flexible lighting in both demanding environments and interiors with requirements for efficiency and design. With a robust construction and smart upgrades, it is an obvious choice for industry, warehouses, garages but also for public spaces in a BRF. The IP44 rating ensures reliable protection in demanding environments, thanks to a new LED attachment, shadowing is minimised, resulting in a more even light distribution. The luminaire has a body in rolled sheet of metal and end caps in injection-moulded 2-component plastic, which means durability and a well thought-out design. To simplify
