

- IP67
- Impact resistant luminaire
- Made in Värnamo, Sweden

The Cobra luminaire series has IP67 protection class and can withstand both heat and cold, which makes it suitable for lighting in exposed environments. The design with a chassis of extruded profile and mounting plate in aluminum gives the luminaire a low weight and high ability to dissipate heat, which means that the luminaire requires minimal maintenance and has a long service life. Cobra is an ideal lighting solution for parking garages, cold rooms, car workshops and other demanding production and industrial facilities. The luminaire is available in two lengths, 762mm and 1372mm, with 4000K, with different light sources and meets the requirements for D-labeling.

On/off

DALI can be connected as DALI or as impulse control/Switch-dim.

RS is equipped with a motion sensor that turns on the luminaire when presence is detected and turns off the luminaire if no presence is detected. It is possible to let an RS luminaire operate luminaires without RS (slave luminaires).

The luminaire is manufactured in Värnamo.

Variations

E-number	Product name	Max. system power (W)	Lumen (lm)	Colour temperature (K)	Mått (LxWxH/D, mm)	Colour	IP-class
7212590	COBRA MID L762 840	39	3763	4000	762x185x85	Grey	IP67
7212591	COBRA MID L1372 840	39	3763	4000	1372x185x85	Grey	IP67
7212593	COBRA MID L1372 840 DALI RS	75	7526	4000	1372x185x85	Grey	IP67
