

- Discreet and energy-efficient luminaire
- Made in Värnamo, Sweden

Kajsa is an energy efficient and discreet interior light that provides a pleasant light. The luminaire is perfectly suited as general lighting in kitchens, storage rooms, entrances, public environments, corridors and other public spaces where a simple and lightweight lighting solution in IP20 is needed. Kajsa is mounted on the ceiling in a keyhole or directly on the ceiling box. The luminaire is available in three different lengths, 600, 1200 or 1500mm, in 3000K or 4000K and as on/off or dimmable. Kajsa Dim is dimmable with phasecut dimmer 10-100%, both leading edge and trailing edge.

The luminaire is manufactured in Värnamo.
