

- Visual comfort
- CRI90 as standard
- Made in Värnamo, Sweden

The narrow pendant luminaire Tekla has a very good glare control through a directed optics and an extra wide uplight, 145°. The luminaire is suitable as lighting for, for example, school environments and has both direct (45%) and indirect (55%) light and a natural color rendering, CRI90.

Tekla has a well-thought-out design, which means that all parts are interchangeable. The luminaire is available in two colors as standard, structured white and structured black, with 3000 or 4000K and comes with 3m 5-wire cable. Tekla is available with DALI and can be connected as DALI or impulse control/Switch Dim.

On request, it is possible to get the luminaire in another RAL color.

The luminaire is manufactured in Värnamo.

## Variations

E-number	Product name	Max. system power (W)	Colour temperature (K)	Mått (LxWxH/D, mm)	Colour	IP-class	Pendant length (mm)
